ONLINE COURSE

Climbing equipment inspection

Ladders, stepladders, mobile towers and caged ladders – to EN 131, NEN 2484, EN 1004 and EN ISO 14122

✓ 100% online, at your own pace
✓ Start immediately after purchase
✓ approx. 3 hours of study
✓ Certificate at ≥ 70%

Who is it for?

Staff of maintenance departments (industry, petrochemicals, housing associations, safety regions) and self-employed professionals who inspect climbing equipment.

What will you learn?

- What the law and the standards require, and how to designate the inspector in writing
- Inspecting ladders and stepladders using 21 inspection points
- Checking mobile towers, including after every erection
- Checking caged ladders against the dimensions of EN ISO 14122-4
- Passing, rejecting and recording with a sticker and register

Programme · 7 parts

1. Legal framework and standards
2. Designation of the inspector
3. Ladders and stepladders
4. Mobile scaffold towers
5. Caged ladders
6. Recording and wrap-up
7. Case studies
